

NEPENTHE
Laboratory Services

Personal. Timely. Accurate.

Tax ID: 383907970
NPI: 1467890137

NLS started in 2013 providing expert urinalysis for local pain management and substance abuse clinics. We are now happy to announce that as of this year, 2020, we now have expanded our services to Clinical Blood Testing. Our exceptional team of knowledgeable, reliable, and caring staff ensure the success of our company by delivering rapid reporting with the accuracy and efficiency clinicians require.

CHEMICAL BLOOD TESTING SERVICES

Nepenthe Laboratory Services, effective July 2020, offers Clinical Blood Testing. Our test menu offers a wide range of disease and laboratory panels in addition to tests offered on an individual selection basis. Our reliable testing help to contribute to the coordination of care for patients, in an efficient, and timely manner

URINE TOXICOLOGY SUMMARY

Nepenthe offers an 11-panel drug screen, in addition to a comprehensive testing menu available for confirmatory testing.

TURNAROUND TIMES

All samples received before 12:00 pm are run and captured within that daily testing batch. If delivered past 12:00 pm, the sample will roll-over to the next business day's testing batch. Negative results are released within 24 hours. Confirmatory testing is performed on positive specimens and released within 48 - 72 hours.

EXCELLENT CUSTOMER SERVICE

Nepenthe offers superior customer service. We have a toxicologist in addition to medical specialists. The medical specialists can quickly and efficiently answer questions via phone or email. Our goal is to ensure all calls during business hours are promptly resolved by our staff. For calls outside of business hours, our clients can expect a 24-hour response time.
